DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

- I. Claims 6-10, 15, 21-25, 66, 77-81, 86, 92-96: direct to button attributes.
- II. Claims 11-14, 82-85, 88: direct to various control and functions associated with an expert system.
- III. Claims 16-17, 87: direct to displaying information in separate multiple display devices.
- IV. Claims 26, 97: direct to the displaying of medical record.
- V. Claims 27, 98: direct to the interface for generating test/study request
- VI. Claims 28-38, 99-110: direct to GUI interactively displayed responsive to selection of body part and examination method. This group of claims is further divided into sub-species:
 - Claims 32, 104: direct to sticky highlighting.
 - Claims 36, 108: direct to pop-up window.
 - Claims 37, 109: direct to separate monitor.
 - Claims 38, 110: direct to expert system with suggestion highlighted
- VII. Claims 2, 4, 20, 39-47, 72-73, 75, 91, 111-119: direct to the display of interactive image of a human body.
- IX. Claims 49-52, 121-123: direct to patient history windows. This group of claims is further divided into sub-species:

Art Unit: 2179

Claims 50, 122: direct to pop-up patient history window.

Claims 51, 123: direct to patient history window displayed in separate monitors.

X. Claims 53-59, 124-130: direct to patient examination windows.

XI. Claims 48, 63-64, 120, 134-135: direct to windows layout. This group of claims is further divided into sub-species:

Claims 65, 136: direct to windows displayed in separate monitors.

XII. Claims 3, 5: 74, 76 direct to logical hierarchy organized by type of examination.

XIII. Claims 68-70: direct to expert suggestion highlighted.

XIV. Claims 60-62, 131-133: direct to guidance information.

NOTE: Claim 56 is made depend on claim 49, however it seem that this is an error since antecedent for the phrase "the patient examination window" of claim 56 is found in claim 55, not 49. For the purpose of this restriction it is assume that claim 56 is a dependent of claim 55.

Clarification and necessary correction is required.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1, 18-19, 67, 71, 89-90, 137-141 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Art Unit: 2179

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

A telephone call was made to Ms. Mary Lou Wakimura on 10/29/04, to discuss the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ba Huynh whose telephone number is (571) 272-4138. The examiner can normally be reached on Mon - Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Heather Herndon can be reached on (571) 272-4136.
